# DLK Pro – the all-rounder for mobile data downloading

Tailor-made for various requirements

**ITS** *ready*  
Intelligent Transportation Systems

**VDO**

## Simply brilliant, brilliantly simple

The DLKPro is the VDO product family, which sets new standards for data downloading and archiving. Handy and small, each one of these innovative, mobile products in mobile phone format is outstandingly user-friendly, with highly efficient work routines and the highest level of data security.

### Efficiency

Thanks to their integrated chip card readers, the products of the DLKPro family are not only ideal for downloading mass memory data, they can also be used for downloading data straight from the driver card – so you can carry out two tasks with one device.

### Security

You can make a backup copy of your data on an external SD card at any time, thanks to the integrated SD card reader. This means that the Keys of the DLKPro family can also be easily used as archiving tools.

### Comfort

Operating the mobile handsets couldn't be easier, thanks to the large full-colour touch screen. Aided by explanatory icons, you can navigate easily through the menu and also visualise and view the downloaded data on site.

### Simplicity

The Keys enable you to easily transfer data to a computer, where you can use the included PC programme to comfortably visualise it, archive it and print it out.

## Always the right solution

Whether downloading data from the mass memory or a driver card, whether archiving, visualising or infringement checks – the DLKPro product family by VDO offers the right solution for every application.

### DLKPro Download Key

It couldn't be simpler – the DLKPro Download Key is the solution for the comfortable downloading of mass memory and driver card data – and for transferring it securely to a computer, where you can easily use TIS-Web® to efficiently import and evaluate it (more about this on page 4).

### DLKPro TIS-Compact

As a downloading and archiving solution, the DLKPro TIS-Compact is the true all-rounder of the DLKPro product family. Its versatile functions leave nothing to be desired; even the basic version gives you visualisation, downloading, archiving and printouts of vehicle and driver data (more about this on page 5).

### DLKPro Inspection Key

Originally developed for mobile roadside inspections, the DLKPro Inspection Key is now also used in fleets; because being able to check driver and vehicle data for infringements quickly and easily – and to archive the data as per legal requirements, offers road transport companies the highest possible level of security (more about this on page 6).

# DLK Pro TIS-Compact – intelligent evaluation

The DLK Pro TIS-Compact combines the downloading, archiving and management of data in one device – because with the TIS-Compact, digital tachograph and driver card data can be downloaded quickly and securely, transferred to a PC and then visualised, archived and printed out using the integrated PC programme. The DLK Pro TIS-Compact is ideal for owner drivers and small fleets with up to 5 vehicles and 10 drivers.

## DLK Pro Download Key – simple data handling

For fleets, workshops and authorities, the DLK Pro Download Key is the ideal transport medium for downloading mass memory and driver card data from digital tachographs.

Reminder for due downloads

PC display of download files

### With the DLK Pro Download Key you can

- download vehicle data via the front interface of the digital tachograph.
- use the integrated chip card reader to download data straight from the driver card (if licenced).
- archive driver and vehicle data as per legal requirements.
- transfer data to a computer quickly and easily via the USB interface.

### The DLK Pro Download Key offers you

- a full-colour touch screen for comfortable operation and for displaying the last download.
- an SD card reader to doubly secure your data.
- a reminder function for required downloads to ensure adherence to legal requirements.
- an integrated rechargeable battery for driver card downloads and for activating the integrated touch screen – no power supply required. All other functions are available without the need for the loaded rechargeable battery.
- 29 available languages.

Small fleets and owner drivers can also use the DLK Pro Download Key as an archiving tool.

### With the DLK Pro TIS-Compact you can

- download vehicle data via the front interface of the digital tachograph.
- use the integrated chip card reader to download data straight from the driver card (if licenced).
- archive driver and vehicle data as per legal requirements.
- export data to other PC applications.
- transfer data to a computer quickly and easily via the USB interface.
- view the activities of individual drivers (driving time, working time and rest periods) and speed profile for the previous 24 hours of driving time.
- print out the recorded vehicle and driver data.

View data on the Key

Detailed view of existing and due downloads

Evaluation of the speed data

### The DLK Pro TIS-Compact offers you

- a full-colour touch screen for comfortable operation and a quick view of the downloaded and saved data.
- automatic signature checking of downloaded files and notification if any files are corrupt.
- an SD card reader to doubly secure your data.
- a reminder function for required downloads to ensure adherence to legal requirements.
- an integrated rechargeable battery for driver card downloads and for evaluating data on the integrated touch screen – no power supply required. All other functions are available without the need for the loaded rechargeable battery.
- 29 available languages (Italian and Dutch must be registered).

Owner drivers and smaller fleets of up to 5 vehicles and 10 drivers can also use the DLK Pro TIS-Compact as a basic data management solution.

# DLK Pro Inspection Key – fast, mobile checks

The DLK Pro Inspection Key is the ideal solution for quickly and easily checking driver and vehicle data for infringements and for archiving it at the same time, as per legal requirements.

On-site infringement checks

Infringement report at the PC

## **i** With the DLK Pro Inspection Key you can

- download vehicle data via the front interface of the digital tachograph.
- use the integrated chip card reader to download data straight from the driver card.
- check driver and vehicle data for infringements quickly and easily.
- check infringements in detail.
- archive driver and vehicle data as per legal requirements.
- transfer data to a computer quickly and easily via the USB interface.
- generate and print out infringement reports.
- define infringement check tolerance values.

## **i** The DLK Pro Inspection Key offers you

- a full-colour touch screen for comfortable operation and a quick view of infringements.
- automatic signature checking of download files and notification if any files are corrupt.
- an SD card reader to doubly secure your data.
- an integrated rechargeable battery for driver card downloads and for displaying infringements on the integrated touch screen – no power supply required. All other functions are available without the need for the loaded rechargeable battery.
- 29 available languages (Italian and Dutch must be registered).

**The DLK Pro Inspection Key is ideal for small fleets and owner drivers where the monitoring of data for infringements is required, but without comprehensive data analysis.**
